EXPERIENCE SUMMARY

- **C#/Unity** - Utilized C# and Unity for a [Classic Arcade-style Frogger game](#) to manufacture moving 2D obstacles and multiple levels. I also created a recreation of [Flappy Bird](#), showcasing moving 2D obstacles as well. The full game is downloadable [here](#).
- **C#/Unity** - Applied C# and Unity to produce projectiles that would destroy objects upon collision in an [asteroid-shooter game](#).
- **Unreal Engine 5** - Used blueprints for a [single-player game](#) to create a HUD to track total objects collected, resulting in a scene switch if the total goal is achieved and the player wins the game. The full game is downloadable [here](#).
- **Unreal Engine 5** - Used blueprints for a [cozy escape game](#) with roaming NPCs and collision-triggered dialogue. The full game is downloadable [here](#).
- **HTML, JavaScript, CSS** - Employed HTML, JavaScript, and CSS to create a [Portfolio](#) website featuring internal and external links and a contact form.

EXPERIENCE

Game Developer Intern | The Tech Academy Feb 2023 - Sept 2023

- Ascertained experience as a full-stack, front and back-end video game software developer.
- Contributed to existing code as an Agile/Scrum development team member.
- Demonstrated my ability to rapidly consume and successfully apply new information by completing over 900 self-paced hours of technical content and application within 6 months.

IT Support & Sr. Customer Care Representative | RISA Tech, Inc. - Foothill Ranch, CA Feb 2022 - Present

- Deliver IT support to resolve hardware, networking, and software issues.
- Work closely with cross-functional teams to coordinate and execute company projects and events.
- Serve as the first point of contact for customers, directing calls to appropriate departments, processing customer orders promptly and accurately, and performing other administrative tasks as needed.

Office Administrator | Nogol Rashidi DDS A Professional Dental Corporation

July 2020 - Dec 2021

Zella Stewart

Lake Forest, CA | 650-773-1605 | zellamariestewart@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

- Coordinated numerous overarching projects, such as streamlining insurance access, creating and maintaining databases, and overhauling virtual and hardcopy files.
- Prioritized and performed administrative tasks such as filing, creating and assembling documents, recordkeeping, and timely completion of extracurricular projects as required.
- Served as an intermediary for written and verbal correspondence between the office or the Doctor with patients or vendors/dental labs.

Remote Web Designer - Internship | Scrum Adventures, Inc.

June 2020 - Aug 2020

- Exhibited strong collaboration in a team environment to create a new, fully functioning company website.
- Rapidly absorbed and effectively utilized new concepts such as Scrum and Agile Methodologies, and programs and software such as Jira, WordPress, and WooCommerce.
- Engineered a moving CaDoMi graphic using Procreate.

Remote Research Assistant - Internship | CSU Fullerton, Psychology Department

Aug 2020 - May 2021

- Illustrated inquisitive disposition through extensive database exploration of pre-existing psychological literature for current lab projects.
- Effectively analyzed, synthesized, and verbalized information for use in the creation of new research and subsequent presentations.
- Functionally collaborated with various teams for the eventual fusion of information.
